

by Honeywell

Oliver footwear stands for quality, comfort and protection. Oliver is the professional and safety footwear brand that brings its unique history of superior craftsmanship and experience in the most extreme working conditions to design the ultimate combination of rugged and comfortable work boots. With these boots, workers can conquer any challenge their jobs may bring, demonstrate their qualities as true professionals, and take pleasure in the superior equipment they rely on every day.

oil & gas

Oliver 65 Series safety footwear for the Oil and Gas industry features chemical and liquid-resistant leather, with hard-wearing thermoplastic urethane (TPU) safety cell reinforcement to provide excellent protection from oils and minerals, cuts and abrasions.

The all-terrain dual-density soling technology combines a soft, shock-absorbing, low-density polyurethane (PU) midsole with a high-density, hard-wearing rubber outsole. The Oliver outsole design is slip-resistant to help prevent worker slips and falls. The 65 series outsole is heat-resistant to temperatures up to 572° F and highly resistant to mineral oils, acids, alkalies, animal fats and oils.

65394 Brown leather, lace-up, 6 in (150mm)

- Steel toe impact and crush protection
- Qflex Zero, non-metallic puncture protection
- Electrical hazard rated
- Heavy duty Kevlar® stitching on critical seams
- Meets ASTM F2413-11 M I/75 C/75 PR EH
- Available sizes: 6-15 / 7½-11½

65396 Riggers, brown leather, pull-on, 10 in (250mm)

- Steel toe impact and crush protection
- PORON® XRD™ metatarsal guard
- Qflex Zero, non-metallic puncture protection
- Electrical hazard rated
- Heavy duty Kevlar® stitching on critical seams
- Meets ASTM F2413-11 M I/75 C/75 Mt/75 PR EH
- Available sizes: 6-15 / 7½-11½

construction & general purpose

Oliver 55 Series safety footwear is constructed with liquid-resistant leather and features TECtuff toe and heel bumpers to help prevent cuts and abrasions. Boots are fully lined, with padded collar and tongue for wearer comfort.

The all-terrain soling technology combines a soft, shock-absorbing, low-density polyurethane (PU) midsole with a high-density and durable rubber outsole. The Oliver outsole design is slip-resistant to help prevent worker slips and falls. The 55 series outsole is heat-resistant to temperatures up to 572° F and highly resistant to mineral oils, acids, alkalies, animal fats and oils.

55231 Nubuck brown leather, lace-up, 6 in (150mm)

- Steel toe impact and crush protection
- Meets ASTM F2413-11 M I/75 C/75 SD
- Available sizes: 6-15 / 7½-11½
