SUPPLIED AIR RESPIRATORS (SAR)

CF2000 Series Supplied Air For Tight Fitting Facepieces

CF2000 Series Supplied Air for Tight Fitting Facepieces

Overview

Converts the 5500 and 7700 Series half masks: and the 5400 and 7600 Series full facepieces into a continuous flow supplied air respirator.

Features & Benefits:

- Breathing tube section close to face is soft and flexible for maximum flexibility.
- Section behind back will not kink and interrupt air supply.
- Connects to facepiece cartridge connections quickly and easily - no tools required.
- Converts the 5500 and 7700 Series half masks: and the 5400 and 7600 Series full facepieces into a continuous flow supplied air respirator.
- Swivel connection rotates 360 degrees so connection stays secure: no matter how much workers move around.
- Y' breathing tube design goes over the shoulders so breathing tube is out of the way: lower profile on half masks to fit under welding helmets and faceshields.
